

JUST A Little note

As math teachers, we all know that math facts are crucial to future learning, but let's face it... kids don't know them! After failing many times trying to get my kids to learn them, I finally found a way to get them to WANT to learn them! This product was how it happened!

This resource helps kids to actually be internally motivated to learn their facts! It is also great to use with growth mindset or 7 habits (begin with the end in mind) as a way to set goals and track them.

It is also a WONDERFUL tool during parent-teacher conferences in making them more student-led. I used to have my students go get their math notebooks and show their parents the progress they had made. It made the students accountable, and not just me.

I will say, however, that there are two important musts: Be consistent in goal setting... AND make sure the kids know they are competing only with themselves.

I promise, you will love it!

instructions

When I started these, I gave all my students a folder with brads. They kept everything in there: Graded tests, tracking log, goal sheets, etc. I also collected data for the whole class on a bulletin board to see their growth as a class!

step 1

Give the pre-test to get baseline data. Have the students graph their scores.

step 2

Each week, or twice per week, give an assessment. You can do individual facts each week, or all facts every week. Or switch 'em up!

My Favorite Way to Assess: Give an individual fact test each week (on Tuesday) and one all-fact test each week (on Thursday). This way they can graph both sets of data!

step 3

After 5-6 weeks, or facts 2-6, take the mid-test and graph the data to see how much growth each student has had. This is a good time for high fives and conferences about growth!

step 4

After 12 weeks, or all facts have been completed, take the post-test. Graph the data to see their growth! Then, do growth conferences!

- * Tracking sheets can be used for students to track the facts they are studying at home or in the classroom.
- * Individual goal sheets can be used throughout to help students create reachable goals for growth in their math fact knowledge!

MATH FACTS

timed assessments

PAGE	ACTIVITY
4-7	Pre/Mid/Post Multiplication Tests
8-19	11 multiplication tests (all facts)
20-31	11 multiplication tests (individual facts)
32-35	Pre/Mid/Post Division Tests
36-47	11 division tests (all facts)
48-59	11 division tests (individual facts)
60-61	Math Facts Tracking Sheet
62-63	Growth Conference Sheet
64-67	Data & Mastery Logs
68-70	Desktop Data Logs

MULTIPLICATION

timed assessments

PRE/MID/POST TESTS

Pre-Test: Take this test first for baseline data. Graph and log data.

Mid-Test: Take after 5-6 weeks of assessments OR after the facts 2-6. Conference about growth!

Post-Test: Take after all facts are completed. Conference about growth!

timed assessments

ALL FACTS 2-12

Possible uses:

- * Give all facts every week.
- * Give all facts twice per week.

- * **MY FAVORITE!**

Combine individual facts with all facts. For example, on Tuesday, you could give the 2's and on Thursday you could give all facts. The next week, you could give 3's on Tuesday and all facts on Thursday. This would help students to determine growth by the week AND which facts they are struggling with the most.

timed assessments

INDIVIDUAL FACTS

Possible uses:

- * Give individual facts once per week.
- * Give individual facts twice per week.

- * **MY FAVORITE!**

Combine individual facts with all facts. For example, on Tuesday, you could give the 2's and on Thursday you could give all facts. The next week, you could give 3's on Tuesday and all facts on Thursday. This would help students to determine growth by the week AND which facts they are struggling with the most.

SCHOOLHOUSE DIVA

DIVISION

timed assessments

ALL FACTS 2-12

Possible uses:

- * Give all facts every week.
- * Give all facts twice per week.

- * **MY FAVORITE!**

Combine individual facts with all facts. For example, on Tuesday, you could give the 2's and on Thursday you could give all facts. The next week, you could give 3's on Tuesday and all facts on Thursday. This would help students to determine growth by the week AND which facts they are struggling with the most.

timed assessments

INDIVIDUAL FACTS

Possible uses:

- * Give individual facts once per week.
- * Give individual facts twice per week.

* MY FAVORITE!

Combine individual facts with all facts. For example, on Tuesday, you could give the 2's and on Thursday you could give all facts. The next week, you could give 3's on Tuesday and all facts on Thursday. This would help students to determine growth by the week AND which facts they are struggling with the most.

MATH FACTS

timed assessments

TRACKING SHEETS

This is just like a reading log. Students study math facts at home. Then, they get parents to sign the NUMBER of MINUTES they studied and how they studied (like, flash cards, computer game, etc.)!

MATH FACTS

timed assessments

GROWTH CONFERENCE

This is a great way to

- Hold students accountable for their fact knowledge
- Celebrate victories!
- Tie in what it means to have a growth mindset OR begin with the end in mind!

These are meant to be used after the pre-test, mid-test, and post-test. You can meet with students quickly and they can fill them in. It helps you to keep track of their growth and holds them accountable!

Quick note about mastering facts: It is important to discuss with your class what mastery looks like! You can set a whole class mastery level (say, 90%) or you can individualize based on the child. Some students will master (memorize) their facts, but have difficulty doing it within the time limit (maybe fine motor issues or slower processing?). So, keep that in mind! Students who aren't able to do it within the time limit because they are counting on their hands have not mastered! 😊

GROWTH CONFERENCE

Pre-test Score:

My short-term goal: _____

How will I reach this goal? _____

My long-term goal: _____

How will I reach this goal? _____

Mid-test score goal: _____

Post-test score goal: _____

Mid-test Score:

Did I reach my short-term goal? Yes No

Did I reach my mid-test score goal? Yes No

What facts have I mastered? _____

What facts do I need to work on? _____

How will I reach my post-test goal? _____

Post-test Score:

Did I reach my long-term goal? Yes No

Did I reach my post-test score goal? Yes No

What facts have I mastered? _____

How have I grown in my math fact knowledge? _____

DATA & MASTERY LOG

Each student should get one of these to write their assessment scores and to log the NUMBER of facts they have mastered!

You can choose between:

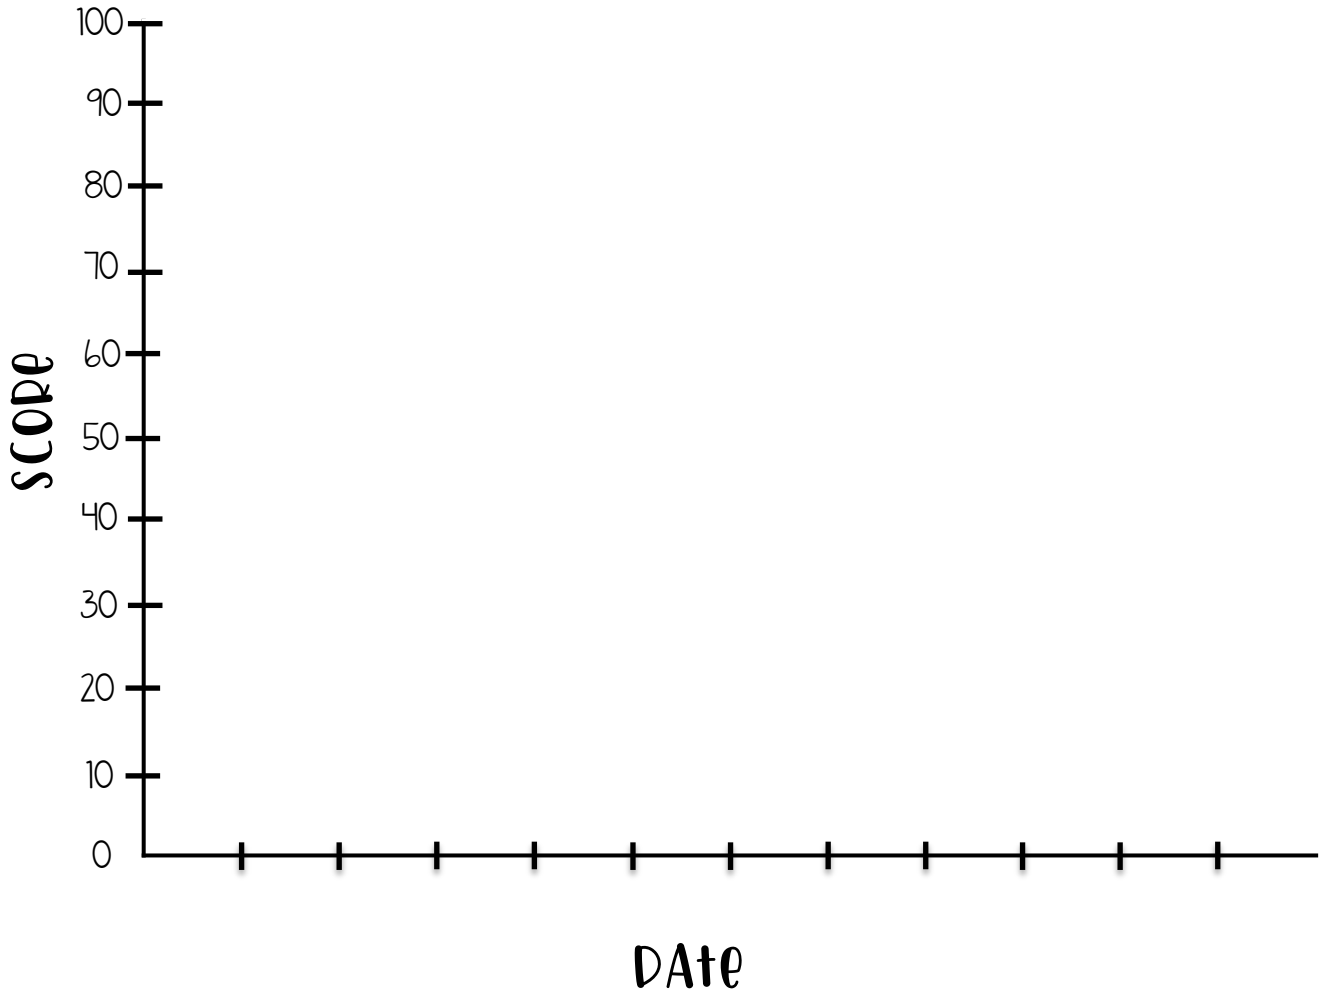

- Data Log with Line Graph by date
 - Data Log with Bar Graph by fact
 - Data Log with Table
-
- ** If you use one of the worksheets with a graph, you don't need to use the large individual graphs.

DESKTOP DATA LOGS

For these, I bought 5 by 8 self-adhesive clear sticky inserts to go on the desk. You can get them just about anywhere, but I know Amazon has them. Just stick them on the desk and have each student insert their graphs and mastery sheet in the slot.

These would take the place of the data/mastery log worksheets, as they are pretty much the same thing.

You can choose between:

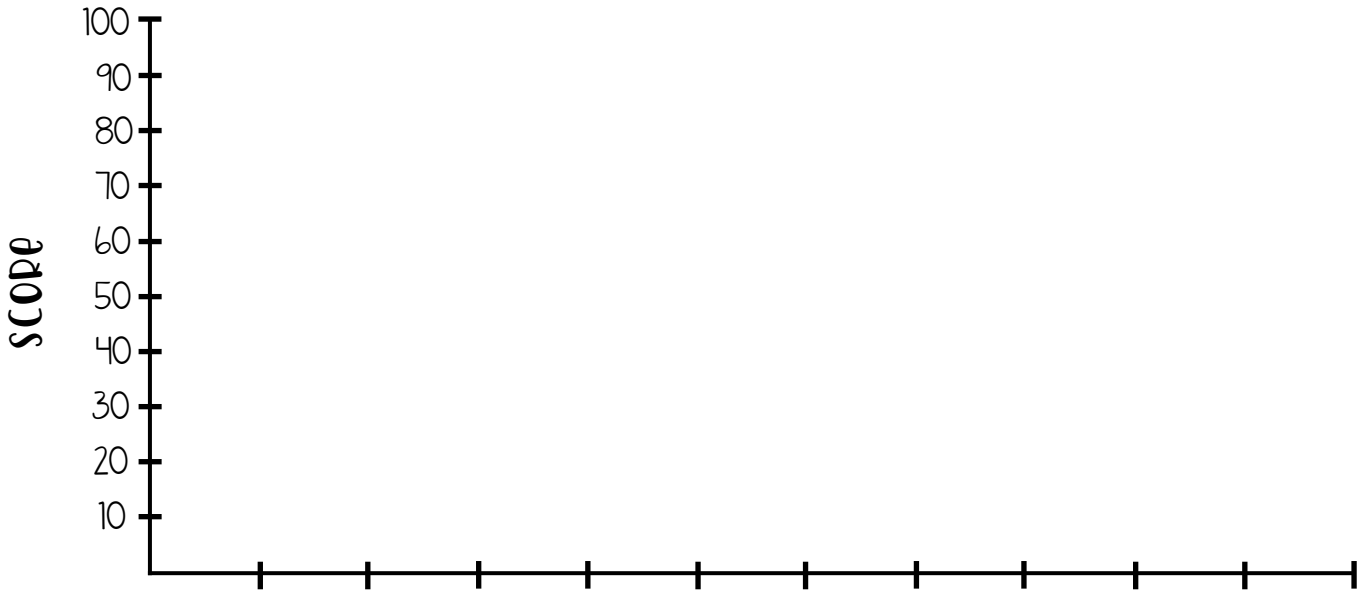

- Data Log with Line Graph by date
- Data Log with Bar Graph by fact

On the bottom of each graph, there are numbered bubbles. Students can color in each number as they master each fact.
